The Robert Craig Company

presents

Three Outstanding New African Violets

STAR AMETHYST

STAR AMETHYST'S magnificent flower, the incomparable color of an Indian Amethyst, is a distinctive star shape, distinguished by triple pollen. The many blooms average at least 1½ inches in diameter. The medium green foliage is firm and easily handled, the plant propagates easily, blooms profusely, and keeps well. It is a worthy addition to our Gem Line of African Violets, which originated with the now famous STAR SAPPHIRE, Plant Patent No. 1187.

CRAIG'S MONARCH

CRAIG'S MONARCH is a king among blue African Violets. The regal blue flower, of majestic size, averages 1½ inches in diameter. The plant blooms profusely, propagates easily, and both flower and medium green foliage hold up very well.

CRAIG'S PURPLE EMPEROR

CRAIG'S PURPLE EMPEROR produces an extraordinary number of large flowers, 1¼ inches in diameter, a beautiful royal purple color. The medium green color is graceful and elastic, the plant holds itself with the regal grace of a born emperor.

These excellent new African Violets are available at once, exclusively through the Robert Craig Company, in 2¼ inch pots, at **\$75.00** per hundred
